Work experience

2021-10 - 2023-05

Senior AI Developer

Owebest, Dubai, AE

Developed and deployed advanced AI models and algorithms for various projects, resulting in improve efficiency and accuracy.
Led a team of AI developers and data scientists, providing technical guidance and overseeing project deliverables.
Conducted thorough research and analysis of emerging AI technologies and techniques to enhanc existing systems.

2019-02 - 2021-04

AI   Developer

FMS, Selangor, MY

Malaysia

Participated in the development and deployment of AI models, including machine learning algorithms and NLP techniques.
Worked closely with data scientists and domain experts to understand project requirements and develop tailored solutions.
Conducted data preprocessing, feature engineering, and model training to optimize AI model performance.
Collaborated with software engineers to integrate AI model into existing systems and applications.
Assisted in the evaluation and selection of appropriate tool and frameworks for AI development projects.

Summary

Highly experienced AI senior developer with a strong background in developing cutting-edge artificial intelligence solutions. Seeking a challenging position to utilize my skills and expertise in AI development, machine learning, and data analysis to drive innovation and deliver impactful results.

Education

Bachelor of ScienceinComputer Science

KDU University College

Badminton Bachelor of Science in Computer Southern University College
Swimming Science

Conducted extensive research on software engineering course, publishing paper in a leading science journal.

Led a team of engineers to design and build a business ecosystem for several companies.

2016-04 - 2018-08

Frontend Developer

ARIYES

ONLINE, Cyberjaya, Malaysia

Creating new features, functionality and capabilities on th eCommerce sites
using Java, Ajax, SAS, and JSON.
Recommending solutions for a streamlined, user-friendly interface with the design team.
Performing bug fixes and code reviews. Technical debt reduced by 32% within first month.
Designing and implementing HTML email templates and newsletters for marketing campaigns.
Consulting with 508 Compliance professionals during development of new websites to ensure accessibility.
Ensuring proper documentation and reports in all stages of product life cycles.

Skills

10 Programming: Angular.JS

10 Programming: B2B Software

9 Internet: AJAX

10 Programming: Application Development

10 Programming: Continuous Integration/Delivery

8 QA and QC: Automated Testing

7 Network: Optimization

Qualifications

Skills
Programming Languages: Python, Java, C++
Machine Learning: TensorFlow, PyTorch, scikit-learn
Natural Language Processing (NLP): NLTK, SpaCy, Gensim
Data Analysis: Pandas, NumPy, SQL
Cloud Platforms: AWS, Azure, Google Cloud Platform
Version Control Systems: Git, SVN
Agile Development Methodologies

Languages

10 English

Achievements

- Soccer 2008 - 2012

Certifications

- NLP | 2021
- React | 2019
